

NEW!

DHPD Hardwood Deck Screw

Simpson Strong-Tie® Quik Drive® introduces its newest collated fastener for quick, easy installation: the DHPD hardwood deck screw. Designed to fasten hardwood decking, such as Merbau, Bahtu and Spotted Gum, to preservative-treated joists, the DHPD deck screw features a paddle-style drill point which virtually eliminates the need to pre-drill. Reinforced mid-wings counterbore hard material and allow the head of the screw to countersink for a clean, less-noticeable finish. The DHPD hardwood deck screw is available in C-3 galvanised coating or in type 305 stainless steel for premium corrosion resistance.

Work Faster in Tough Material with the DHPD Hardwood Deck Screw

- Paddle-style drill point reduces timber splitting without predrilling
- Compact head ensures a low-profile installation and reduced visibility
- Auto-feed design allows installers to work faster while reducing screw waste

DHPD SERIES

Hardwood to Timber

Features:

- Type 305 stainless steel
- #2 square recess
- Reinforced wings
- Paddle point
- Compact head

DHPDG SERIES

Hardwood to Timber

Features:

- C-3 galvanised coating
- #2 square recess
- Reinforced wings
- Paddle point
- Compact head
